## PREFACE

---

D570

This little booklet contains the names and addresses of all former members of the Regiment whose names and addresses were known at the time the book was compiled. There are bound to be errors. Men move from place to place and very seldom think of notifying the Secretary of change of address.

This book is intended to encourage visiting among former members of the Regiment. It is too bad it cannot be absolutely correct for the will to visit a former member of the Regiment is always present but the knowledge of ones whereabouts is not always accessible. We trust this will make the knowledge of your friends whereabouts accessible to you.
